ABOUT

ABOUT US

关于我们

Foshan Angel Aluminum Industry Co., Ltd. is a comprehensive company specializing in the research, development, production, and sales of aluminum products, including aluminum alloy doors and windows, sunrooms, and profiles. Located in Foshan, China, known as the world's aluminum capital, the company benefits from a superior geographical location, complete industrial support, and a favorable business environment. This combination of hardware support and a conducive software environment supports the company's long-term growth.

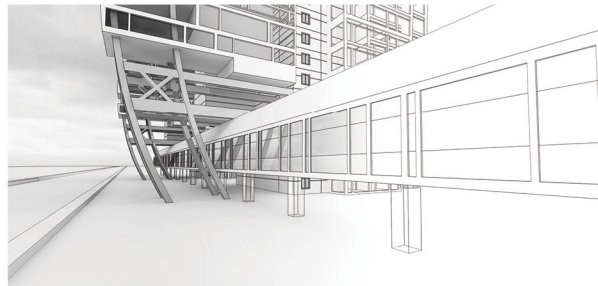

Founded by several senior professionals with over ten years of industry experience, our team is deeply involved in the aluminum product industry. We are committed to providing customers with high-quality, stable, reliable, and intelligent products and services, aiming to become a trusted partner for our customers.

The company operates two major production bases, each specializing in different types of products. We manage every aspect of production, from extrusion and forming to surface treatment and the manufacturing of aluminum products and accessories. Our experienced and stable workforce, along with comprehensive production regulations and error correction procedures, ensures the high quality of our finished products.

In the realm of technological research and development, we place utmost importance on innovation, understanding that science and technology are fundamental to productivity. Excellent design not only offers customers a superior user experience but also minimizes quality issues during production. Our continued investment in R&D ensures our ongoing leadership in the industry.

When selecting accessory suppliers, we prioritize quality, reliability, and aesthetics, recognizing that high-quality accessories are crucial for the overall product quality.

Our company values "integrity, creativity, and win-win" and integrates these principles into our operational processes. We focus on long-term interests and strive to provide customers with superior quality products. Through persistent innovation, we aim to achieve our vision of becoming an outstanding supplier of aluminum products.

佛山市天使铝业有限公司是一家集研发、生产、制造及销售为一体的综合性企业，专注于铝合金门窗、阳光房和型材等铝制品。本公司坐落于中国佛山，这里被誉为世界铝业之都，拥有得天独厚的地理优势、完善的产业链支持以及优良的商业环境。无论是硬件设施还是软件环境，我们都具备推动公司长期发展的强大后盾。

由多位拥有十余年行业经验的资深专家创立，公司深耕于铝合金门窗、阳光房及型材等铝制品领域。我们致力于向客户提供优质、稳定、可靠且智能化的产品和服务，努力成为客户信赖的合作伙伴。

目前，公司拥有两大生产基地，各自专注于不同类型产品的生产。从铝制品的挤压、成型、表面处理到门窗配件的生产，我们实现了配件的大部分自产自供。凭借多年的生产经验，公司培养了一支稳定而成熟的员工队伍，并建立了健全的生产规范流程。我们通过从原料检验、过程检验到成品检验的一系列严格程序，确保了产品的高品质。

在技术研发领域，我们给予极高的重视。深知科技企业发展的核心动力，公司注重优秀设计的推出，不仅旨在提升客户使用体验，更在于生产过程中质量问题的预防。我们将持续加大技术研发的投入，保持行业领先地位。

在配件供应商的选择上，我们始终将品质、可靠性和美观作为选择标准。我们坚信，优质的配件是实现最终产品高品质的关键。

公司秉承“诚信、创造、共赢”的价值观，并将这些理念融入我们的日常运营中。我们坚持追求长远利益，始终以“向客户提供更优质产品”为方向，不断创新，力求实现成为铝制品领域的杰出供应商这一企业愿景。

不可磨灭的匠心精神 Indelible ingenuity

US

SYSTEM SUNROOM
SOLUTIONS

系统阳光房解决方案 技术与人性的有机结合

致力于打造走向国际的阳光房产品，以提高产品安全性、通用性、适应性、美观度为目标，结合实际使用环境与国外先进设计理念，为用户提供完美的户外私人空间

Dedicated to creating international sunroom products, to improve product safety, versatility, adaptability, aesthetics as the goal, combined with the actual use of the environment and foreign advanced design concepts, to provide users with the perfect outdoor private space!

Insulation performance

Experience the comfortable home environment. In order to maintain a comfortable indoor environmental temperature, the high insulation strip is used to greatly improve the product's thermal insulation performance, so that you and your family can enjoy the spring of the four seasons.

Sound insulation performance

Create a quiet living space, a unique sealing structure, so that the product has good sound insulation performance, can reduce the noise of 35 decibels, effectively reduce noise pollution, and allow you to enjoy a peaceful world at home.

Water density

It is an important indicator of the waterproofing of doors and windows for the wind and rain for your home. The good water density can effectively block the invasion of rainwater at the moment when the storm comes, creating a comfortable space for the home.

Qi performance

The invasion of harmful substances, poor gas tightness affects the insulation, moisture-proof, sound insulation, and fire prevention of buildings, which is also closely related to shielding harmful substances. Optimize air quality and provide healthy living space.

Anti-wind pressure performance

Resisting the crazy rainstorm attack, using high-strength aluminum alloy profiles, combined with the glue-injection angle code process, can play the pressure resistance of the entire product, and through various tests, it can easily cope with the invasion of the wind and heavy rain.

1. 移动阳光房 / Mobile Sunroom		3. 凉亭系列 / Gazebo Series	23
1-1. 独立款 Independent Mobile Sunroom	05	4. 车棚系列 / Carport Series	27
1-2. 泳池阳光房 Pool Mobile Sunroom	07	5. 雨棚系列 / Awning Series	33
1-3. 靠墙款 Mobile Sunroom Against the Wall	09	6. 铝合金门系列 / Aluminum Doors	
1-4. 露台温室款 Patio Greenhouse	11	6-1. 折叠门 Folding Doors	35
		6-2. 推拉门 Sliding Doors	37
2. 铝合金玻璃阳光房 Standard Sunroom Aluminum Alloy		7. 铝合金窗系列 / Aluminum Windows	
2-1. Sunroom A	15	7-1. 平开窗 Casement Windows	41
2-2. Sunroom B	17	7-2. 推拉窗 Sliding Windows	47
3-3. Sunroom C	19		

Mobile sunroom 移动阳光房

1-1. 独立款

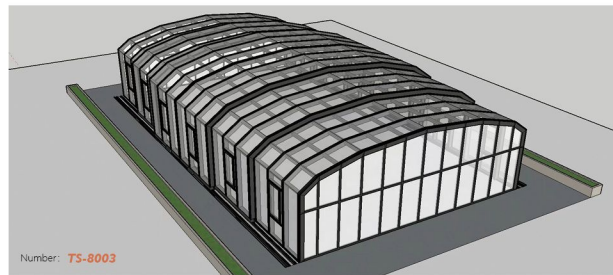

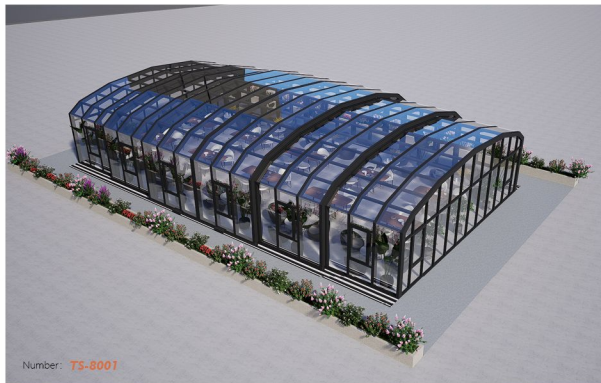

Independent Mobile Sunroom

1. 自由度: 由于不与主要建筑物连接, 独立式移动阳光房的设计更加自由, 可以根据个人偏好进行定制, 包括大小、形状、材料等。

Degree of freedom: Since it is not connected to the main building, the design of the independent mobile sunroom is more free and can be customized according to personal preferences, including size, shape, material, etc.

2. 增加室外空间: 独立式移动阳光房可以增加户外的使用空间, 可以作为休闲娱乐区、花园小屋、工作室等, 使生活更加丰富多彩。

Increase outdoor space: The independent mobile sunroom can increase the outdoor space and can be used as a leisure and entertainment area, garden shed, studio, etc., making life more colorful.

1-2. 泳池阳光房

Pool Mobile Sunroom

1. 环境保护: 阳光房能够保护泳池水面免受外部杂物的污染, 保持水质清洁, 减少水的蒸发, 降低化学品的使用量, 从而节约资源并减少环境污染。

Degree of freedom: Since it is not connected to the main building, the design of the independent mobile sunroom is more free and can be customized according to personal preferences, including size, shape, material, etc.

2. 安全性: 封闭的阳光房能够防止儿童或宠物意外跌入泳池, 提高了游泳的安全性。

Safety: An enclosed sunroom can prevent children or pets from accidentally falling into the swimming pool, improving swimming safety.

1-3. 靠墙款

Mobile Sunroom Against the Wall

Number: TS-8010

1. 节省空间: 靠墙式设计可以最大限度地利用现有建筑物的空间, 不会占据额外的地面空间, 特别适合空间有限的场所。

Save space: The wall-mounted design can maximize the use of existing building space without occupying additional floor space, which is especially suitable for places with limited space.

2. 保温效果好: 靠墙式阳光房一侧紧贴建筑物墙壁, 可以共享建筑物的保温效果, 从而保持室内温暖, 节约能源。

Good thermal insulation effect: One side of the wall-mounted sunroom is close to the wall of the building, which can share the thermal insulation effect of the building, thereby keeping the indoor warm and saving energy.

Number: TS-8011

Number: TS-8012

1-4. 露台温室款 Patio Greenhouse

1. 扩展空间: 露台阳光房将露台或阳台空间有效利用, 扩展了室内空间, 提供额外的生活区域, 可以用作休闲、娱乐或办公等。

Expanded space: The terrace sunroom effectively utilizes the terrace or balcony space, expands the indoor space, and provides additional living areas, which can be used for leisure, entertainment or office.

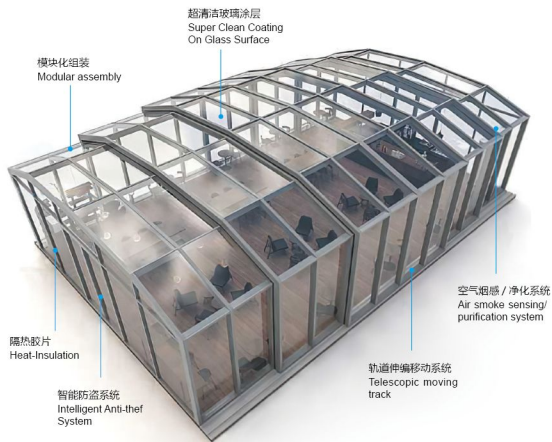

2. 四季皆宜: 在四季中, 露台阳光房可以提供一个舒适的户外空间, 让人们在阳光下休息、阅读或社交。

Suitable for all seasons: In all seasons, a patio sunroom can provide a comfortable outdoor space for relaxing, reading or socializing in the sun.

NO.1 Aluminum alloy structure

6063 Primary Aluminum

2-3mm thick T1 mg Alu alloy material.
High strength, high toughness, sufficient materials,Strong bearing capacity.

NO.3 Drainage System

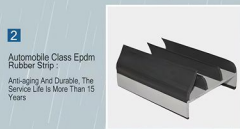

Five waterproof technologies

For your peace of mind all Sunrooms solid roof & Shade Rooms use a five technologies to ensure any water that penetrates the exterior seal is caught by the secondary drain and directed outside your sunroom.

1

High sealed glass plate:
keep good tightness,
waterproof and sound proof

2

Automobile Class Epdm
Rubber Strip :
Anti-aging And Durable, The
Service Life Is More Than 15
Years

3

Aluminum alloy guide
channel:
Let the rainwater flow into the
drainage channel along the
diversion channel

4

Waterproof Trench Baffle:
Prevent the Rain From
Splashing

5

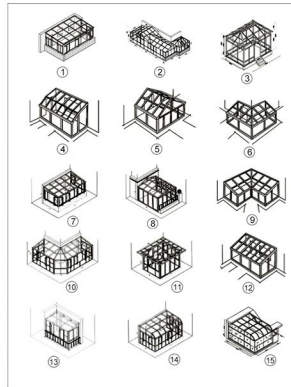

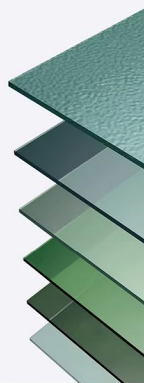

Drain pipe:
The water from the gutter goes
to the ground through the drain
pipe

No matter how heavy the rain is, it won't leak

NO.4 Insulation System

A Variety Of Glass Can Be
Optional And Meet Different
Functional Requirements

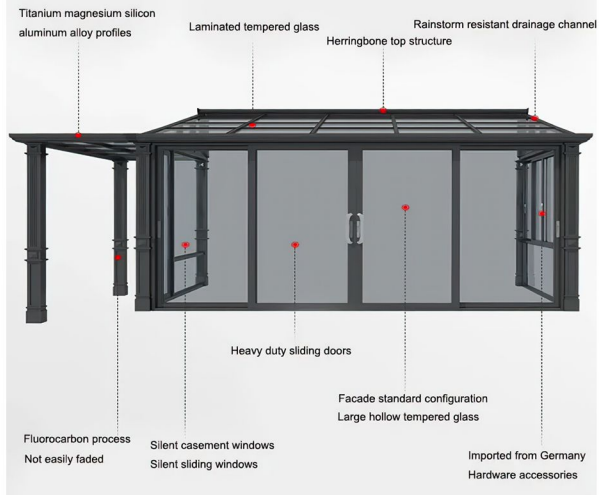

- Single Tempered Glass
- Insulation Tempered Glass
- Triple Tempered Glass
- Coated Glass
- Laminated glass
- LOW-E Tempered glass

NO.2 Ventilation System

Electric skylight

A skylight can provide lighting, ventilation, views, and sometimes emergency egress.

Louver pavilion 车棚系列

Number: TS-8041

Number: TS-8042

一、单边独立式 + 单边靠墙式

Unilateral Independent + Unilateral Wall Type

1. 独立结构: 车棚一侧靠墙, 另一侧独立支撑, 独立于建筑物, 不需要依附于房屋, 因此能够灵活安装在任何空地上。

Independent structure: One side of the carport is against the wall and the other side is independently supported. It is independent of the building and does not need to be attached to the house, so it can be flexibly installed on any open space.

2. 简单结构: 独立单边式车棚结构简单, 安装方便, 不需要繁琐的施工程序, 通常可以自行组装或委托专业人士快速安装。

Simple structure: The independent single-sided carport has a simple structure and is easy to install. It does not require cumbersome construction procedures and can usually be assembled by yourself or entrusted to professionals for quick installation.

二、吊拉式

Hanging Type

1. 节省空间: 吊拉式车棚无需支撑柱或地面支撑, 完全悬挂于建筑物上方, 因此节省了地面空间, 适用于空间狭小的场所。

Saving space: The hanging carport does not require support columns or ground supports and is completely suspended above the building, thus saving ground space and is suitable for places with small spaces.

2. 便于进出: 吊拉式车棚设计简洁, 车辆可以从任何方向进出, 不受支撑柱的限制, 使用更加方便。

Easy to enter and exit: The hanging carport has a simple design, and vehicles can enter and exit from any direction without being restricted by support columns, making it more convenient to use.

Number: TS-8043

Number: **TS-8044**

三、合抱式

Hugging Type

1. 稳固结构: 合抱式车棚的支撑柱采用交叉结构, 能够有效增强整体的稳固性和承重能力, 使车棚更加坚固可靠。

Stable structure: The support columns of the double-hug carport adopt a cross structure, which can effectively enhance the overall stability and load-bearing capacity; making the carport more solid and reliable.

2. 透气性: 车棚结构之间的空隙使空气能够流通, 保持车内通风, 防止车辆内部产生潮湿、霉变等问题。

Breathability: The gaps between the carport structures allow air to circulate, maintain ventilation inside the car, and prevent moisture, mildew and other problems inside the car.

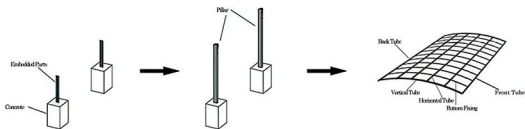

Thickened Aluminum Material Durable

Aluminum Carport is made of Powder Coated Aluminum Frame and Polycarbonate Sheet, Resistant to Strong Wind and Heavy Snow

Number: **TS-8043**

INSTALLATION

STEP 1

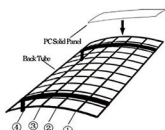

Firstly dig 2 pits of 400mm in the installation position, the distance between the pillars is 2790mm. Put into the embedded parts and fill up to 200mm and wait till solidified.

STEP 2

Put into the pillars, then to fill the pits with concrete to the horizon. Fill the pillar with concrete up to the height of about 1500mm, one day waiting for dry.

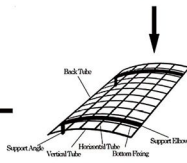

STEP 3

Ceiling assembly. Firstly well install the connection between rear tube and vertical tube, front tube and vertical tube. Then install four horizontal tubes and bottom fixing.

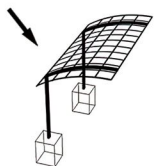

STEP 5

Install the PC panel. Put the panels on between vertical tube and the bottom fixing, bottom and bottom fixings, then install the top fixing and tighten with screws. (Note: In the position where the support elbow is, i.e. the third and eighth vertical lines, do not tighten at first. You can tighten the first three horizontal tube with the screws, and the fourth horizontal tube and the rear tube not being fixed with the screw temporarily, so as to easily be installed to the pillars.)

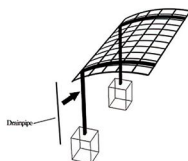

STEP 4

Support elbow assembly. Firstly install the support angle to the support elbow, then assemble the support elbow to the assembled ceiling. (Note: the connection between the four horizontal tube and the support elbow pipe must be fixed with a screw.)

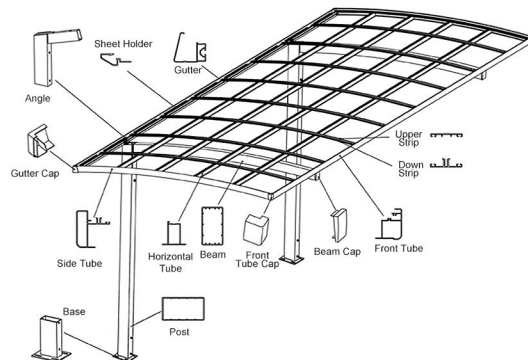

STEP 6

Assemble the completed ceiling to the pillars. The connection between the rear tube and the pillars are tightened with two screws. To tighten and fix the support elbow and both sides of the pillars with two screws.

STEP 7

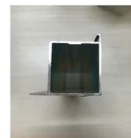

Assemble the drainpipe. Align the drainpipe against the drain hole on the rear tube, then fix with screws. (Note: the position where the drainpipe and the rear tube being connected should be coated with glass glue for waterproof.)

INSTALLATION

Main Beam (2.3x2.8mm)

Deputy Frame(1.2mm)

Side Frame(2.5mm)

Front Eave(1.5mm)

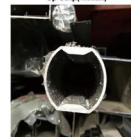

Up Strip(1.0mm)

Down Strip(1.0mm)

Gutter(2.0mm)

Pull Rod(4.0mm)

Post(4.0mm)

Canopy series 雨棚系列

精美坚固，经久耐用

材质与颜值兼备

Beautiful and strong, durable, material and appearance level

采用高强度铝合金材料，立柱与顶棚连接处用内置镀锌钢结构加固，更安全牢固。铝合金表面经粉末静电喷涂处理，抗氧化能力长达30年以上。

High strength aluminum alloy material is used, and the connection between the column and the ceiling is reinforced with built-in galvanized steel structure, which is more secure and firm. The surface of aluminum alloy is treated by powder electrostatic spraying, and the oxidation resistance is more than 30 years.
